Career and Technical Education (CTE) Online Courses

Fall Online Courses

BVED 431 History, Philosophy and Practices of Career and Technical Education (3 Credits)

Catalog Description: A study of the history, growth, theory, and present status of career and technical education in secondary and post-secondary schools. The course focuses on principles, practices, and major issues of career and technical education and its relationship to individual career and technical service areas. This course will cover relationships between general education and career and technical education.

BVED 432 Coordinating Cooperative Education Learning (2 Credits)

Catalog Description: A study of the principles and techniques used in coordinating cooperative work experiences for students in Career and Technical Education. Included is a study of labor laws, public relations programs, advisory committees, and organization and supervision of on-the-job training, evaluation, and follow-up of student learners.

Spring Online Courses

BVED 434 Managing Career and Technical Student Organizations (2 Credits)

Catalog Description: A study to introduce students to the issues of planning and implementing career and technical student organizations. This course is designed for advisors at the secondary and post-secondary level wishing to begin, expand, or promote career and technical youth organization.

BVED 490 Methods for Teaching Career and Technical Education Subjects (2 Credits)

Catalog Description: A course that concentrates on methods used for teaching Career and Technical Education courses. Topics are designed to develop and enhance the instructional competencies for teachers in Career and Technical Education programs.

To register for an online course, please contact Patti Rickford, Assistant Registrar, at 1-800-532-8641 ext. 37295 or via email at Patti.Rickford@vcsu.edu.
